The Livestock Exchange 2011 - The Seré legacy

On 9 and 10 November 2011, the ILRI Board of Trustees hosted a 2-day 'liveSTOCK Exchange' to discuss and reflect on livestock research for

Event Participants

RT @Ewen_chats: Knut Hove closing after J. Smith: In this event, we managed to celebrate Carlos Sere and start rebuilding our #ILRI strategy #livestockX

10-Nov-11 14:39 | Ldejene

@Peterballantyne inviting us all to enjoy the final music and mesheta for the end of the #livestockX! Big THANK YOU!

10-Nov-11 14:37 | Ewen_chats

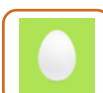

Highlights from K. Hove: There is no subsistence farming left in the world, everyone is connected #livestockX

10-Nov-11 14:32 | Ewen_chats

RT @zerihun_s: We must engage partners from the beginning and be part of the process in our scientific researches #livestockx @ILRI

10-Nov-11 14:30 | Ewen_chats

Knut Hove closing after J. Smith: In this event, we managed to celebrate Carlos Sere and start rebuilding our #ILRI strategy #livestockX

10-Nov-11 14:29 | Ewen_chats

RT @ideasforafrica: Empower farmers -- Encourage collaborations | Africa Rural Connect <http://t.co/penSCxoP> //> overlapping w/ #livestockX

10-Nov-11 14:27 | Ewen_chats

A critical challenge for #ILRI is to communicate our strategy - and change it over time, iteratively #changemanagement #livestockX

10-Nov-11 14:24 | Ewen_chats

We must engage partners from the beginning and be part of the process in our scientific researches #livestockx @ILRI

10-Nov-11 14:24 | Zerihun_S

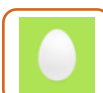

The Paris declaration puts it squarely: We can't go in to countries to do science, we have to engage & involve ministries #livestockX

10-Nov-11 14:22 | Ewen_chats

RT @ekatingi: how do we get out steak while reducing carbon emission from livestock, Jimmy Smith reflections for #ILRI #livestockx

10-Nov-11 14:22 | Zerihun_S

Scaling up starts at the very onset of any research or development process. We have to think about WHAT (to do) and HOW #livestockX

10-Nov-11 14:21 | Ewen_chats

how do we get out steak while reducing carbon emission from livestock, Jimmy Smith reflections for #ILRI #livestockx

10-Nov-11 14:21 | ekatingi

We have been passively engaging so far. It hasn't worked well for us. We need to achieve impact at scale and use donor-speak #livestockX

10-Nov-11 14:20 | Ewen_chats

How do we help smallholder to be part of the solution to reduce poverty ? #livestockx

10-Nov-11 14:18 | tsehay

J. Smith: What to do about animal welfare? We can't ignore it in our conversations. #livestockX

10-Nov-11 14:18 | Ewen_chats

The need for service hubs to enable market access and engage private sectors #livestockx

10-Nov-11 12:21 | tsehay

We need to communicate, enhance co-ordination b/n different actors through value chain approach #livestockx

10-Nov-11 12:20 | tsehay

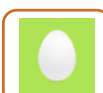

New value chain arrangements: innovation platforms as communication and co-ordination mechanism #livestockx

10-Nov-11 12:18 | tsehay

Value chains need upgrading ...need new modes and methods #livestockx

10-Nov-11 12:07 | tsehay

Ranjitha Puskur on value chains frameworks - as a means to an end. Value chains R ubiquitous, have unique/complex features #livestockX

10-Nov-11 12:06 | Ewen_chats

Pro-poor opportunities exist for high value products but co-ordinations is needed #livestockx

10-Nov-11 12:02 | tsehay

Pro-poor opportunities for high value products exist but coordination required. Segmented markets need describing/promoting #livestockX

10-Nov-11 12:01 | Ewen_chats

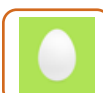

#livestockX Informal markets remain markets of choice for poor consumers, have specific characteristics... Info on quality is key 4 trust

10-Nov-11 11:59 | Ewen_chats

Consumption - demand. Developing country consumers know about quality, are ready to pay for it, have different safety prefs #livestockX

10-Nov-11 11:56 | Ewen_chats

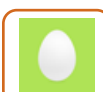

The whole data system for livestock is difficult to settle (animals move) / widespread & aggregated data are not available. #livestockX

10-Nov-11 11:55 | Ewen_chats

Animal source food in the developing world demand for quality and safety #livestockx

10-Nov-11 11:41 | tsehay

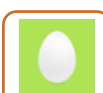

2/2 Export your way to wealth - I'm competitive but really poor #livestockX

10-Nov-11 11:35 | Ewen_chats

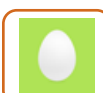

Provocative statements: customer is king, all the world's a value chain, would you recognise an #innovation if it walked by? #livestockX 1/2

10-Nov-11 11:34 | Ewen_chats

2) smallholder competitiveness 3) value chain innovation and 4) trade and sanitary/phytosanitary (SPS) measures #livestockX

10-Nov-11 11:33 | Ewen_chats

New @ILRI #livestockX session on pro-poor access to markets w/ Steve Staal - followed by #worldcafe on 4 sub-topics: 1) consumption & demand

10-Nov-11 11:32 | Ewen_chats

V. Nene: "We have 10x more microbial cells than human cells in our body - we're more microbes than humans" lol #livestockX

10-Nov-11 08:34 | Ewen_chats

There is a hope and aim to recreate endangered species e.g. Northern white rhinos (only 6 left in the world, 4 in Kenya) #livestockX

10-Nov-11 08:32 | Ewen_chats

Big aside: What do we do about bio-diversity and conservation. Do we conserve everything? Who'll pay for it? #livestockX

10-Nov-11 08:31 | Ewen_chats

Research institutes, private and public sectors should be integrated as one to translate research in to action #livestockx

10-Nov-11 08:31 | tsehay

Vish Nene head of the biotech team @ILRI #icow farmers best friend <http://t.co/G18qhIB7> #livestockx

10-Nov-11 08:30 | Zerihun_S

RT @ewen_chats: V. Nene: Computer revolution going mobile e.g #iCow. Quantum revolution: still Einsteinian physics though. #livestockX @ilri

10-Nov-11 08:29 | Zerihun_S

All major livestock species' genomes cracked by now (except goats) and progress going at an incredible speed #livestockX

10-Nov-11 08:28 | Ewen_chats

To get our research to development, we need to focus on public private partnership #livestockx

10-Nov-11 08:27 | tsehay

Genomics & -omics revolution: Genes will help provide solutions in biology for human health, agriculture, the environment #livestockX

10-Nov-11 08:26 | Ewen_chats

V. Nene: Computer revolution going mobile w/ e.g. #iCow. Quantum revolution: still Einsteinian physics though. #livestockX

10-Nov-11 08:25 | Ewen_chats

Vish Nene starting his presentation on animal health and genetics. 3ple revolution: computer/quantum/bio-molecular revolutions #livestockX

10-Nov-11 08:22 | Ewen_chats

RT @tsehay: We need a big livestock pie to motivate science and make an impact on poverty reduction #livestockx

10-Nov-11 08:10 | Ewen_chats

New session on animal health and genetics - preceded by hard talk with Brian Perry interviewing Segenet Kelemu #livestockX

10-Nov-11 08:09 | Ewen_chats

We need a big livestock pie to motivate science and make an impact on poverty reduction #livestockx

10-Nov-11 08:09 | tsehay

very busy days @ilri with #livestockx this week and then to #ifwf3 Pretoria SA on Sunday

10-Nov-11 06:38 | Zerihun_S

Carlos: Livestock goods and bad will not go away from the global agenda #livestockx

09-Nov-11 15:15 | tsehay

communication, knowledge management, innovation processes among some of the major improvements ILRI has seen under Carlos Sere #livestockx

09-Nov-11 15:09 | ekatingi

Carlos: New arrangements and partnership is required to really address poverty reduction issue #livestockx

09-Nov-11 14:58 | tsehay

Carlos: Execution of planning is a difficult task and it need serious management attention. #livestockx

09-Nov-11 14:56 | tsehay

Carlos: Partnerships is central focus to scaling up our research and development #livestockx

09-Nov-11 14:49 | tsehay

Carlos: We need to strengthen our capacity building #livestockx

09-Nov-11 14:47 | tsehay

Carlos: We moved from traditional communication to more interactive and engaging communication platforms by using web 2.0 tools. #livestockx

09-Nov-11 14:46 | tsehay

Carlos: Livestock systems need more integration #livestockx

09-Nov-11 14:42 | tsehay

Carlos: The major decision has taken on vaccine development #livestockx

09-Nov-11 14:41 | tsehay

Carlos: We established BecA as bio-science platform #livestockx

09-Nov-11 14:40 | tsehay

Carlos: We have establish innovations system #livestockx

09-Nov-11 14:40 | tsehay

Carlos: We have very disciplinary themes, in genetics, nutrition economics and markets,.. #livestockx

09-Nov-11 14:39 | tsehay

RT @ILRI: #ILRI's Ruth Duncan lauds Chryssille Sere & her 10 years at ILRI: Committed, Gregarious, Intellectual, Altruistic, Real---CGIAR! #livestockx

09-Nov-11 14:32 | ekatingi

Carlos is about to give presentation on "Livestock research for development in a complex, messy world" #livestockx

09-Nov-11 14:20 | tsehay

live streaming Carlos Seré "Livestock research for development in a complex, messy world <http://t.co/i4VGIXGx> via @imoore_CGIAR #livestockx

09-Nov-11 13:55 | Zerihun_S

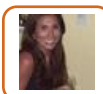

Follow the video streaming of Carlos Sere on "Livestock research for development" at 17:15 (GMT+3), <http://t.co/43C2tTOc> #livestockx

09-Nov-11 13:28 | tsehay

Zoonotic diseases that @ILRI could do research on: Avian flu, TB, Bruxella, SARS etc. #livestockX

09-Nov-11 13:17 | Ewen_chats

RT @ewenlb: #livestockx Carlos's speech: CG centres (should) care for people and do applied science, bring motivated & opinionated folks.

09-Nov-11 13:15 | Maru_Valdes

RT @ewenlb: Special coffee ceremony for Carlos Seré #livestockx. Carlos's Legacy: putting livestock on the global agenda & research FOR development.

09-Nov-11 13:15 | Maru_Valdes

Biggest food disease killers: no.1 is salmonella, E.Coli, Bruxellosis, micro-toxins? #livestockX

09-Nov-11 13:14 | Ewen_chats

Brian Perry introducing the hard talk about a.o. Agriculture-associated / emerging / occupational / food-assoc'd diseases #livestockX

09-Nov-11 13:11 | Ewen_chats

Difficult for @ILRI to manage food safety measures and what diseases can be transmitted by animals - but this needs to happen #livestockX

09-Nov-11 13:06 | Ewen_chats

Now vox populi video introducing other peoples' views about Human health&agric links Soon followed by hard talk. #livestockX

09-Nov-11 13:03 | Ewen_chats

What is the role of @ILRI? Technical expertise, experience in emerging value chains etc. #livestockX

09-Nov-11 12:56 | Ewen_chats

#ILRI is leading one component of the CRP4 which is Agriculture and disease #livestockx

09-Nov-11 12:56 | tsehay

Smallholder can contribute for poverty reduction if the environment is enabling them #livestockx

09-Nov-11 12:55 | tsehay

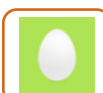

First thematic session of #livestockX with Delia Grace inviting John Mc Dermott via Skype video to talk about human health and agriculture

09-Nov-11 12:54 | Ewen_chats

RT @zerihun_s: A bit late but you can follow #livestockx online @ <http://t.co/k439Wqtt...> #yam

09-Nov-11 12:01 | ewenlb

Efficiency vs. equity --> not either/or! We need to think about new, mixed models #livestockX Countries have to grow, equitably

09-Nov-11 12:00 | Ewen_chats

A bit late but you can follow #livestockx online @ <http://t.co/8gxG6hZ9> #yam

09-Nov-11 11:57 | Zerihun_S
